## Education

---

### Interactive Media Design - Web

Sep 2023 – Apr 2025

Georgian College – Barrie, ON

## Work Experience

---

### Web Developer

Feb 2024 – Present

DS Digital Media – Barrie, ON

- Developed and maintained dynamic websites, optimizing performance and enhancing user experience.
- Developed SEO-optimized, responsive WordPress websites, improving page speed and user engagement which boosted organic traffic by 20%.
- Collaborate with designers and explain technical concepts to non-technical team members.

### Full Stack Developer Intern

Jan 2023 – July 2023

Digital Terai – Kathmandu, Nepal

- Built and integrated React components with RESTful, improving data efficiency.
- Used Node.js for backend tasks and Git to keep team projects organized and on track.
- Always tried to bring the news ideas for web design and implement it through code to make the web page more modern.

## My Recent Project

---

### Elmvale Horticulture Society – [elmvale.infinitecascade.xyz](https://elmvale.infinitecascade.xyz)

- A full-stack application built using Next.js, Bootstrap, and a headless CMS. This was developed as a practical project to showcase dynamic content management and responsive design.

### My Portfolio Website – [sahityaneupane.com.np](https://sahityaneupane.com.np)

- A personal portfolio site developed using Next.js, Tailwind CSS, Node.js, and Express. It highlights my work, skills, and hands-on experience with full-stack development and server-side rendering.

### JWT Authentication Implementation – [Article](#) | [GitHub](#)

- A blog post and GitHub repo explaining how to implement JWT-based authentication using Next.js, Node, and Express. This was created to solidify my understanding and help others learn the stack.
